

## Construction Update E MONTPELIER Route 14 Bridge – week of December 4, 2017

Hello,

Construction on the E Montpelier Route 14 Bridge project will shut down for winter next week. The temporary bridge and approach roads are installed. All work on US Route 2 is completed. Next week the contractor will remove construction signs and will not return to the job site until spring 2018.

*View of the 133-foot temporary bridge that will be used during the VT 14 bridge reconstruction project next year.*

*Pedestrians will be able to cross the Winooski River on the temporary bridge's sidewalk.*

*Welding the guardrail to the side of the temporary bridge steel frame was one of the final tasks to be done to complete the bridge installation.*

It is illegal in Vermont to use any portable electronic handheld devices while driving. The law carries fines of up to \$200 and points assessed if driving within a work zone.

Safe travels. Construction alerts on this project will resume next spring.
